### **PSYCHO-PERSONAL PROFILE**

The Psychological (Emotional) level of the human bioenergy field, radiating 4-18 inches from the physical body, is highly characterized by the emotional and psychological conditions and attributes of the subject.

#### **Left Body Bioenergy Analysis - Environmental Influences**

The left side of the body, connected to the right hemisphere of the brain, reveals how the subject experiences or perceives the world, or which energies the person is receiving from his or her social environment. Left body bioenergies generally consist of energy-information imprints from predominant energies in a person's environment, to which the person is the most strongly or frequently exposed. This may also indicate a propensity or tendency to receive and absorb the detected energies, or an inherent sensitivity to such energies.

The left hand is the primary channel for inflow of electrofield energy through the ulnar and radial nerves, so it is the most significant for revealing the subject's environmental influences and perceptions.

Distribution of detected bioenergies within the Left Body of Psychological Level:

14% Red, 14% Rose, 14% Orange, 14% Gold, 14% Navy, 14% Purple, 14% Silver

**Red:** Material and Physical focus. Indicates mental activity related to material self-gratification, accomplishment of material goals and ambitions. Subject's thoughts may involve power and status, desire for attention and acceptance from others, indulgence or luxury items.

**Rose:** Sexual energy, Romance. Indicates physical and sensual desires or preoccupations, related to physical pleasures, sexual attraction, emotional and romantic fulfillment, or fun and entertainment.

**Orange:** Emotional Healing. Mental activity is related to resolving emotional issues, recovering from intense life experiences, and overcoming obstacles. Generally Healthy, but psychological support and psychotherapy are highly likely to be greatly beneficial.

**Gold:** Healing Energy. Subject has abundance of healing bioenergy which is not burdened or inhibited by any personal emotional issues. This excess of healing energy projects outwards to contribute healthy and healing energy to the environment, and other people, animals, plants and objects which come into contact with this bioenergy.

**Navy:** Leadership. Expression of intellectual ideas which involve or influence material or social situations.

Purple: Intellectual energy, clarity of thought, also academic activity or psychic ability.

Silver: Protection, shielding from destructive energies, emotional balance, peacefulness, and stability.

### **Right Body Bioenergy Analysis - Behavioral Patterns**

The right side of the body, connected to the left hemisphere of the brain, reveals how the subject interacts socially, or which bioenergies the person contributes or transmits back into their environment. Right body bioenergies generally influence the way others perceive and respond to the subject. They indicate the subject's current reactions to present situations, and predominant habits or behaviors for interacting with his or her environment.

The right hand is the primary channel for outflow of electrofield energy through the ulnar and radial nerves, so it is the most significant for revealing the subject's reactions and behavioral patterns.

Distribution of detected bioenergies within the Right Body of Psychological Level:

14% Burgundy, 14% Red, 14% Rose, 14% Gold, 14% Yellow, 14% Green, 14% Navy

**Burgundy:** Material and Physical focus. Indicates mental activity related to survival issues, money, material objects, and the immediate physical environment. Related to instincts, basic human needs and desires.

**Red:** Material and Physical focus. Indicates mental activity related to material self-gratification, accomplishment of material goals and ambitions. Subject's thoughts may involve power and status, desire for attention and acceptance from others, indulgence or luxury items.

**Rose:** Sexual energy, Romance. Indicates physical and sensual desires or preoccupations, related to physical pleasures, sexual attraction, emotional and romantic fulfillment, or fun and entertainment.

**Gold:** Healing Energy. Subject has abundance of healing bioenergy which is not burdened or inhibited by any personal emotional issues. This excess of healing energy projects outwards to contribute healthy and healing energy to the environment, and other people, animals, plants and objects which come into contact with this bioenergy.

**Yellow:** Happiness and well-being, with a healthy measure of balanced caution.

**Green:** Emotional energy, love and caring, can also be negative emotion or trauma. Subject is experiencing some emotional event or situation.

**Navy:** Leadership. Expression of intellectual ideas which involve or influence material or social situations.

### **Cerebral Bioenergy Analysis - Predominant Thoughts**

The regions of the bioenergy field around the head consist of electromagnetic brain waves. The left head (on right side of chart) shows left brain activity, the right head (on the left side of the chart) shows right brain activity, and the regions on the top of the head show integrated brain activity. The brain waves in these cerebral regions reveal inherent characteristics of the person, particularly their predominant thoughts and mental preoccupations.

Distribution of detected bioenergies within the Cerebral Regions:

60% Yellow, 20% Blue, 20% Purple

**Yellow:** Happiness and well-being, with a healthy measure of balanced caution.

**Blue:** Communication, perspective of reality, search for and expression of truth. Open-minded communication with good intentions.

**Purple:** Intellectual energy, clarity of thought, also academic activity or psychic ability.

### **Chakra Bioenergy Analysis - Personal Characteristics**

The Chakras are bioenergy vortexes located at fixed points along the spinal column, which radiate energy-information related to the activity of corresponding endocrine glands. In accordance with the known functions of the endocrine glands, each Chakra represents a category, or sphere, of the subject's life. The color of bioenergy found in each Chakra region reveals events and conditions in that category of the person's life.

**Base Chakra** - The bioenergy found in this region reveals situations and events in the category of sexuality, self identity, and purely physical or material activities.

**Sacral Chakra** - The bioenergy in this region reveals situations and events in the category of physical vitality and healing - both emotional healing and physical healing.

**Orange:** Emotional Healing. Mental activity is related to resolving emotional issues, recovering from intense life experiences, and overcoming obstacles. Generally Healthy, but psychological support and psychotherapy are highly likely to be greatly beneficial.

**Solar Plexus Chakra** - The bioenergy in this region reveals situations and events in the category of calmness or nervousness, indicating factors which are influencing or affecting emotional stability.

**Gold:** Healing Energy. Subject has abundance of healing bioenergy which is not burdened or inhibited by any personal emotional issues. This excess of healing energy projects outwards to contribute healthy and healing energy to the environment, and other people, animals, plants and objects which come into contact with this bioenergy.

**Heart Chakra** - The bioenergy in this region reveals situations and events in the category of deep emotions and emotional satisfaction, usually in the area of romance.

**Red:** Material and Physical focus. Indicates mental activity related to material self-gratification, accomplishment of material goals and ambitions. Subject's thoughts may involve power and status, desire for attention and acceptance from others, indulgence or luxury items.

**Throat Chakra** - The bioenergy in this region reveals situations and events in the category of communication, both expression and listening.

**Silver:** Protection, shielding from destructive energies, emotional balance, peacefulness, and stability.

**Purple:** Intellectual energy, clarity of thought, also academic activity or psychic ability.

## **HEALTH LEVEL ANALYSIS**

### **Physiological Analysis**

The Health level of the human bioenergy field, radiating 0-4 inches from the physical body, consists of electromagnetic resonance from neurological activity originating in the brain, combined with electromagnetic field energy transmitted from the various areas of the body. The colors of bioenergy detected in each region of the body reveal information about conditions in the specific region where each color is found.

### **INTERNAL BRAIN IMAGE**

The human brain is neurologically connected to all parts of the human body, receiving bioenergy information from the various biological and bioenergy systems, and often transmitting bioenergy which can influence those systems. The internal brain image generated by RFI™ shows and identifies the bioenergies which are currently present in specific parts of the brain. The bioenergies in the brain itself can influence the body, other parts of the brain, or aspects of the subject's psychology, through various energy-information exchange processes.
